Github: <https://github.com/Suha19> | Portfolio: <https://suha19.github.io/Personal-Portfolio/>

SUMMARY

Web Developer able to build web applications from the ground up. Skilled in information gathering, planning, design, development, testing and delivery and maintenance. Passionate about software architecture and design, combined with sensitivity to serve the needs of the business with a balanced delivery of high quality solutions.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, BOOTSTRAP, JAVASCRIPT, JQUERY, JSON, NODE.JS, MySQL, MSSQL, MONGODB, HANDLEBARS

OS: UNIX, Windows

PROJECTS

WikiFoodia

<https://github.com/Suha19/wikifoodia> | <https://whispering-earth-68482.herokuapp.com/>

- A full stack application allowing users search for, create and share meals.
- Technologies Used: - HTML, CSS, JavaScript, MySQL, Node JS, Sequelize, Passport - APIs, ORM, Heroku, Express, Bootstrap, Google Fonts, Rubber Duckie.

BeeNeat

<https://github.com/mgmarti/BeeNeat> | <https://mgmarti.github.io/project-1/>

- The Idea for this project is to help the user to organize, bookkeeping and spend more time on things that matter.
- Technologies Used: JavaScript, Jquery, and Firebase, Bootstrap, Unsplash API, Google Maps API.

Chili Taco

<https://github.com/Suha19/Chili-Taco> | <https://salty-scrubland-10289.herokuapp.com/>

- Is a food-truck app that lets users input the names of tacos they'd like to eat.
- Technologies Used: MySQL, Node, Express, Handlebars and a homemade ORM. I used Node and MySQL to query and route data in my app, and Handlebars to generate my HTML.

EXPERIENCE

Computer Technician

CSAT Solutions

2018- Present

Houston, TX

- Troubleshoot 95% of hardware/software issues within 30 minutes to meet company standards..
- Install and maintain computer operating systems hardware and software packages to ensure they are current and meet clients needs.
-
- Verified fresh hardware and software for compatibility with company systems.
- Uphold technology procedures in coordination with information technology teams to meet company processes..

Office Clerk

2016-2018

Vero's Party

Houston, TX

- Maintained customer relationships, handled shipping, communication logistics, and office assistant responsibilities while meeting and exceeding all obligations within the company.
- Increased customer retention by 22% through monitoring and responding to client emails in a timely manner.
- Decreased clerical errors by 15% and lowered scheduling mistakes by 32% with excellent attention to detail.

Database Analyst

2010-2013

Minister of Education

Baghdad, Iraq

- Proposed solutions to improve system efficiencies, leading to a 15% reduction in operating costs for the year.
- Utilized Microsoft SPSS statistical software to track and analyze data to successfully interpreted data to identify key metrics and draw conclusions..
- Designed and built statistical analysis models on large data sets using MySql.

EDUCATION**UT Austin Coding Boot Camp Certificate:** Houston, TX

2019

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS. Collaborated with other developers on group projects and established a project workflow using Github.

Bachelor's Degree of Software Engineering: Al Rafidain University

Great knowledge in programming languages, developing, testing and debugging code in C++, and Visual basic.

MTA: Database Fundamentals: Microsoft

2016

Earners of the MTA: Database Fundamentals certification have demonstrated introductory knowledge of and skills with databases, including relational databases, such as Microsoft SQL Server.

ACHIEVEMENT

Ability to work on any stack of a web application from frontend, backend logic, data modeling, developing, and on. Love prototyping ideas with new technologies as that is the best way to learn and understand the language. Fast learner with strong CS fundamentals who have used multiple programming languages and frameworks. Built different iOS apps using JS, MYSQL, MangoDB in a few weeks.
